

LIVE MALL VERTICAL SPECIFICATIONS

Specifications and creation

These are the technical specifications of our screens to help you create the best possible campaign. If you are not able to adjust your campaign materials into the right specification, our creative studio is always willing to help (and tailor) you by creating a great campaign. Besides that, we are also capable of building new campaigns for you, if needed.

Screen sizes and resolutions

Our portfolio consist of more than 609 digital and conventional screens with various resolutions. By adjusting your campaign to the right specifications you can get the best out of your campaign on every screen. Follow the specifications below.
